

Ethereum Gold Finance

Financial Whitepaper

Presentation :

- With the development of blockchains and the emergence of new technologies, we are announcing the completion of our project in a new ecosystem based on new DeFi token called ETGF .
- The new update of projects are DeFi , Yield Farming , Staking and Lending programs , which let crypto traders & holders earn free tokens , free money under secure protocols .

What's ETGF ?

- Ethereum Gold Finance is a full reward ecosystem Controlled by ETGF token .

ETGF Ecosystem :

- **E-Farming :**

Earn free ETGF tokens by provinding liquidity in different pools .

- **E-Staking :**

By holding your favorite stablecoins USDT , USDC and DAI you can earn free ETGF tokens from our verified and secured pools.

- **E-Vote :**

We will create a forum to vote on-chain from users .

- **E-Swap :**

Will be a decentralized protocol for automated liquidity provision on Ethereum (similar as Uniswap app) .
